## KRUEGER RESIGNED

But Afterward Withdrew It.

Son of American Consul Reported Killed.

By Yaqui Indians--Other South American News.

By Associated Press to the Journal.

JOHANNESBURG, June 22.—President Kruger had been absent from the government building since Friday afternoon, and it was understood that, owing to the opposition shown him by the executive council and the Volksraad, regarding the questions of the Johannesburg fort and the dynamite monopoly, he had arrived at the conclusion that he no longer possessed the Volksraad's confidence, and threatened to resign. Today, however, a deputa-tion, including General Joubert, the vice president, Herr Schalk, and the chairman of the Volksraad, waited upon President Kruger, and induced him to attend a secret session of the Volksraad, which lasted over three hours. Meanwhile an anxious crowd had assembled outside the building, waiting expectantly to learn the outcome of what was regarded as a momentous debate. Late last evening it was announced that the Volksraad had finally assured the president that they had the utmost confidence in him. It is understood, however, that a majority of the members of the raad still differ from the president on the dynamite monopoly question.

LONDON, July 25.—The reports regarding resignation of President Kruger of South Africa are conflicting, but according to information he actually resigned office conditionally. ## Use of Dumdum Bullets.

WASHINGTON, July 25.—The United States will not be bound by the reported decision of The Hague conference to prohibit the use of the dumdum bullet in warfare. So far we have not been obliged to resort to the use of this bullet, but the ordinance officers have been making experiments to secure and increased "stopping" effect for the small-caliber ball used in the Krag-Jorgensen, and these experiments have proceeded somewhat on the lines of the dumdum balls. The specific reason why Captain Crozier and the remainder of the American delegates voted against the proposal to prohibit the dumdum was because their general instruction forbade them to pledge this government to any line of action that would retard the development of inventive genius in war. Adhesion to the protocol is voluntary. Great Britain also refuses to prohibit the use of the dumdum bullet.

## DISCONTINUANCE.

Sentiment South to Have Filipino Promised Complete Independence.

NEW YORK, July 25.—A special to the Times from Washington says: Ex-Secretary Hoke Smith was interviewed on the subject of the campaign in the Philippines, and said: "Nine-tenths of the people in our section are opposed to continuing the war. The sentiment all over the South, I believe is overwhelming against trying to retain the islands. The Philippines are fighting for liberty in the same way that we did a hundred years ago, and the American people are already sick and tired of the slaughter going on there."

"I am not in favor of having our troops leave the islands with an armed force lined up against them, but that would not be necessary. If we would avow our intention of leaving the islands to the natives and abandoning our attempt at sovereignty, the fighting would stop at once. Then after we had assisted in establishing a government if the natives wished, our troops could be properly withdrawn. If the next presidential campaign were to be waged solely on the issue of continuing the war, the opposite candidate would carry the country."

It was suggested that the insurrection might be put down in the meantime. The word "insurrection" seemed to displease Mr. Smith, who replied: "There is not any insurrection. There is simply an invading army trying to conquer a spirited people and it will be impossible, and I believe and hope, to put them down. We will no sooner think we have done it than there will be another outbreak. President McKinley entirely misunderstood the sentiment of our people on the question when he visited the South. He made a speech in Atlanta before a great throng, in which he asked the audience if they wanted to see our soldiers turn their backs on the American flag in the East, and they answered 'no.' 'What else could they say when the question was put to that?' We can leave the Philippines without leaving the flag or running from an enemy. I am opposed to spreading philanthropy with a galling gun."
